

# **28<sup>th</sup> Annual National Organics Recycling Conference**

## **September 19 – 21, 2018**

**Holiday Inn Hotel & Suites Pointe-Claire/Montréal**  
**Montréal, Québec • [www.compost.org](http://www.compost.org)**

### **Wednesday September 19th – Tour Day**

Buses will depart from the Holiday Inn Pointe Claire at 9:00AM with their return planned for 5:00PM. Please meet in the lobby by 8:45AM. ***Also, please remember to bring your safety boots, hard hat and safety vest.***

### **Our tours will include visits to:**

#### **Ville de St-Hyacinthe Anaerobic Digestion Plant**

The municipality of St-Hyacinthe has turned to anaerobic digestion to address their area's waste management programs for both sewage sludge and residential source-separated organics. The plant that you will be visiting converts over 200,000 tonnes of these materials annually into digestate and a pipeline-quality biogas that is used to provide power for their municipal vehicles and buildings. Excess biogas is sold to the regional utility, Gaz Métro.

#### **Voghel (St-Hilaire)**

Productive organics recycling at your facility is supported by a variety of equipment. From initial selection to ongoing maintenance and repairs, this equipment and its care has direct impact on your success. Since 1996, Voghel has specialized in supplying heavy equipment for the environment and construction fields. This part of our tour day will involve equipment demonstrations as well as insight and tips on the equipment operations.

**OPENING RECEPTION for the**  
**28<sup>th</sup> Annual National Organics Recycling Conference**  
**7pm in Holiday Inn Hotel & Suites Pointe-Claire/Montréal**
