

National Organics Recycling Conference 2017

CALGARY Alberta

September 18th – 20th Plus ...

Sept 17th (training) & Sept 21st (additional tours)

This year, the City of Calgary will be home to the largest compost facility of its kind in Canada, producing high quality compost from both the food and yard residuals from single-family homes across the city as well as dewatered biosolids from Calgary's wastewater treatment.

Presentations! Tours! Exhibits! Networking! Training!
