

Dear Madam/Sir,

We are pleased to inform you that the draft certification protocol D 0017-988 *Compostable Products – Certification Protocol* has recently reached the stage of the Public Review. At this stage, interested parties are invited to comment the document with the view of gaining consensus within the stakeholders community.

We therefore encourage you to consult the *Public Review* section of our Web site [<http://www.bnq.qc.ca/en/public-review.html>] to download the draft document as well as the comments form.

Please return your comments to [secretariat.normalisation@bnq.qc.ca](mailto:secretariat.normalisation@bnq.qc.ca) **before November 7, 2020**. Please note that comments or proposals from participants must refer to a section of the document, include a **technical justification** and be presented in the table provided to be considered by the standards development committee.

#### **How to use the comments form:**

The comments form must retain its original format. It must not be altered in any way and should be sent back to us in **PDF format**.

Should the amount of lines provided be insufficient, please use a second comments form. When sending us the forms, please indicate how many forms are included. Any file or document used to support your comments should be sent by email as attached files and not be inserted directly in the PDF comments form.

Any suggestions or comments included directly in a standard or certification protocol, or forwarded to us in any other way than the one described above will not be taken into consideration.

If you would like to invite interested parties to comment on the draft document, we encourage you to **forward them the link to the BNQ Website, where they can download the necessary documents**.

Thank you for your valuable contribution.

Best regards,

*Suzanne Fontaine, on behalf of*
