#### Details:

### Tell us about your Community Composting Program

*(Please provide an overview of your program, providing details such as when it was started and what is currently happening, who is involved/participating, your hopes and goals for your program; we look forward to chatting with you in more detail so sharing your story in about 500 words or so would be terrific. This can be provided separately if the space below is insufficient. Thank you.)*

**What materials are you composting?** *Please check any that apply below.*

- Post-Consumer Source-Separated Organics
- Leaf and Yard Residues
- Fisheries & Aquaculture Residues
- Forestry Residues
- Municipal Biosolids
- Livestock & Agri-Food Residues

**How are you collecting the organics?**

**How much are you composting?** *Please provide an estimate in tonnes.*

**What methods of composting are you using?**

- Windrow
- Static Pile with Forced Aeration
- Static Pile
- In-Vessel
  - i. Cover (eg. Gore)
  - ii. Channel/Tunnel
  - iii. Building
  - iv. Container

Have you taken any how to compost, as well as soil health courses? If so, which ones?

What is being done with the finished compost produced?

How are you managing compost testing now?

Thanks so much. Look forward to quickly following up and arranging a time to chat further.

*Please send completed applications to:  
Danielle Buklis ([info@compost.org](mailto:info@compost.org)) and Susan Antler ([santler@compost.org](mailto:santler@compost.org))  
For more information, please call: (647) 655-8759.*

## **About the Compost Council of Canada**

The **Compost Council of Canada** is the national non-profit organization dedicated to advancing organics recycling, compost quality, soil health, and climate-positive resource management. Through training, advocacy, research, and community partnerships, the Council supports composters of all sizes in building a healthier, more sustainable Canada.

The **Compost Quality Alliance** is a voluntary program established by the Compost Council of Canada and the compost producers utilizing standardized testing methodologies and uniform operating protocols to improve customer confidence in compost selection and utilization.
