About the Course’s Virtual Format:
The Council’s well-recognized compost facility operator’s course will be presented in ZOOM format in five 3.5-hour sessions each day (Monday to Friday) during the week of February 23-27, 2026. In addition to our principal trainer, Larry Conrad, the sessions will also feature additional experts in the organics recycling field to provide additional in-depth discussions and learning. Sessions will be recorded, allowing for registrants’ continued access throughout the training period.
