About the Course’s Virtual Format:

The Council’s well-recognized compost facility operator’s course will be presented in ZOOM format in five 3.5-hour sessions each day (Monday to Friday) during the week of December 4th, 2023. In addition to our principal trainer, Larry Conrad, the sessions will also feature additional experts in the organics recycling field to provide additional in-depth discussions and learning. Sessions will be recorded, allowing for registrants’ continued access throughout the training period.
